

Amended minutes for commission minutes of November 2015

Commissioner Manganeillo has asked for a correction in the minutes and this passage has been voted to be added.

Bill: I made a motion pertaining to table the SOPPS simply due to certain irregularities in it. That motion was seconded by Charles Malo. There was essentially no discussion, no vote was taken on it and the minutes do not reflect that any discussion took place. Fred claimed that we already had a motion on the floor and that the first motion had to be taken of before the second could be acted on.

This section will be added under new business under the discussion of the SOPPs.

(This question was asked by Commissioner Manganiello to be put in the right position of the minutes) **This question is in the exact order where it was asked and will not be moved.**

This section was at the start of Public Input.
